SINCE HUMANS
REALIZED THE
POTENTIAL OF THE
BRAIN, THEY HAVE
ALWAYS TRIED TO
UNLOCK THE FULL
POTENTIAL.

DEEPAK THUKRELA

Mr. Deepak Thukrela is the founder of Brain Excellence Labs and an international brain trainer, who revealed the secrets regarding training the most powerful resource that has been provisioned to us (our minds) during a live interaction, on the official Instagram page of Lovely Professional University, @lpuuniversity, with the students on 9th August 2020.

The secret being that one must make gradual improvements and notice the minor changes every day rather than hoping for seeing changes overnight after completing the task in one go. The human brain, like all processors, needs time to process the instructions and implement them daily to make them a part of your subconscious mind, like muscle memory.

After spending an illuminating session with the prodigy, all the students returned to their daily chores but with a renewed zeal to try out the suggested methods which would make them gain an edge over the rest.

AMIT PANDEY

These words spoken by Mr. Amit Pandey invoked a feeling of perseverance into the minds of many. He contrived this conviction in his career too. He completed his chemical engineering from HBTI, Kanpur. Currently, he is a 3 times TEDx speaker, CEO of PinCap, a motivational speaker, and moreover won around 115 awards.

Student Organization Ojaswi, under the aegis of the Division of Student Welfare, organized a one-to-one live interaction with Amit Sir on the Facebook page of Lovely Professional University to incentivize the youths on 23rd August 2020. The session charged viewers fully with a positive mindset. In the event, he delineated his 7, 21, 90 days theory. Filter out negative thoughts or news from life and only listen to positive news for straight 7 days; if it continued for 21 days, it becomes a habit; when continued for 90 days, it becomes a lifestyle. Around 3.4k viewers witnessed the energetic session with the Human Charger, Amit Pandey Sir.

COMPETITIONS

COMPETITIONS

OJMUN

MUN is similar to a mock parliament where each participant represents various entities, be it delegation of a country (like in actual UN) or different personalities. This event requires everyone to be on the best of behavior as upsetting other "representatives" can have dire consequences for your "nation" and must employ adiplomatic approach to impress the judges and the Executive Board.

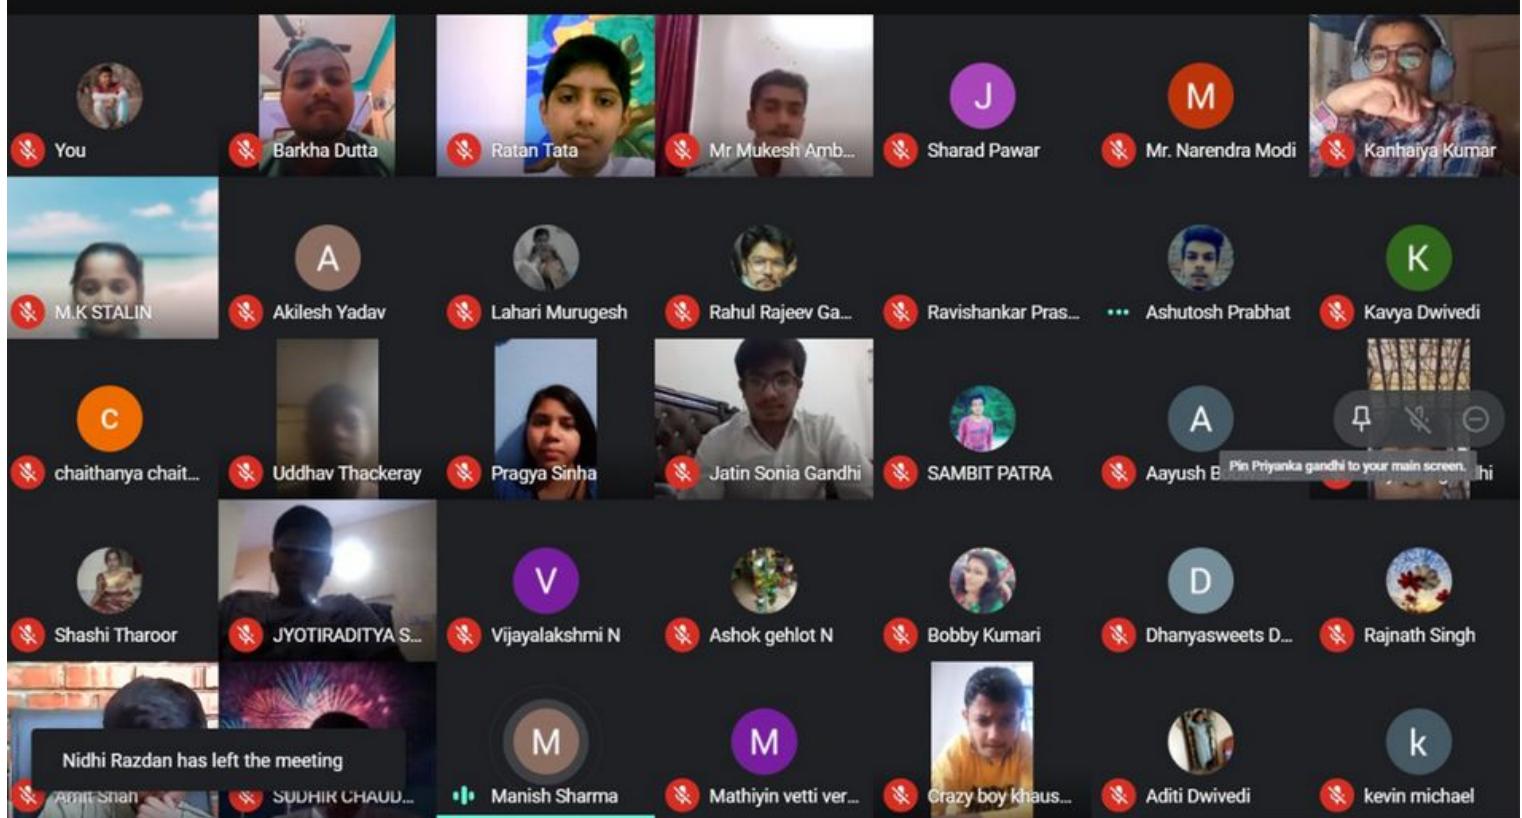

**THE GAZETTE
OF OJASWI
MODEL UNITED
NATIONS**

THE DIPLOMATIC DANCE

"Model UN trains today's students to tomorrow's leaders. Students who do model UN would one day change the world." Realizing the importance of expressing one's ideas on a more professional platform, to be heard and make a difference, Student Organisation Ojaswi, under the aegis of the Division of Student Welfare, held OJMUN, a Model of United Nations, in collaboration with Advaith International Academy on 20th and 21st of February 2021.

The board included experts from both organizations with immense experience in the domain of MUN and professional grooming. After receiving a positive response, the participants, now delegates, were allotted delegation in one of the three committees. Each committee dedicated itself to an agenda relating to the current affairs to help the participants stay abreast with the recent happenings. The committees and their respective agendas were:

Committee in full swing!

United Nations Commission on the Status of Women followed by next point on that committee

United Nations Commission on the Status of Women - Health and reproductive rights with special emphasis on adolescent pregnancies

Aim: To spread awareness about prioritizing the health of mother over child and healthcare required for healthy childbirth.

Stake Holder Committee followed by next point on that committee

Stake Holder Meet - Effect of Covid-19 Pandemic on Indian Economy

Aim: To analyse the impact of the pandemic on the economy and coming up with solutions to boost the economy.

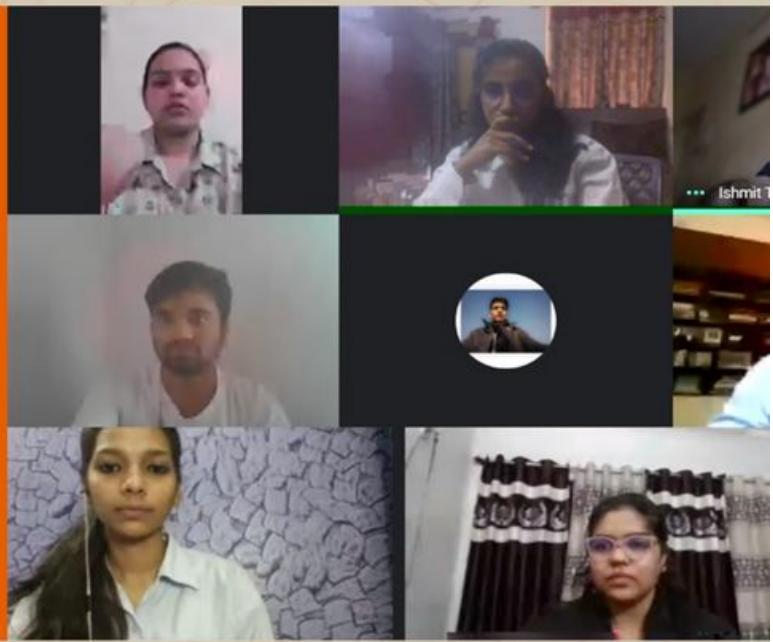

International Press Committee followed by next point on that committee

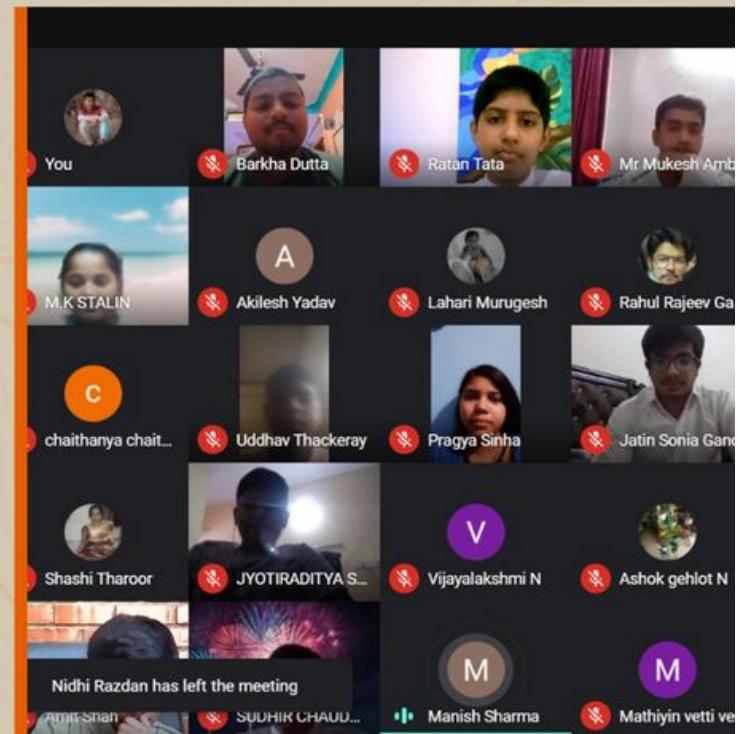

International Press - Journalism and Caricature

Aim: To help the upcoming journalists and enthusiasts practice and deliver the event to the Public with as few alterations as possible in the least amount of time.

The exemplary display of diplomacy while expressing ideas, even when they clash with one another, left the judges and board members bedazzled. After thorough deliberation among the judges and board members, the top-performing delegates were announced, rewarded, and congratulated justly. At the end of this top-class event, all the delegates had invaluable learning in the form of experience that they could take home with them.

CORNUCOPIA OF CHAMPIONS

In a MUN, the delegates are awarded Best Delegate, High Commendation, Special Mention followed by Honorable/Verbal Mention in the descending order of the honor based on their performances. Although many still think that to bag the Best Delegate Award, one must be a delegate of P5 countries, i.e., The United States of America, The United Kingdom of Great Britain and Northern Ireland, France, China, and Russia. This proved to be false when Tanya Shastri, the delegate of Peru, bagged the Best Delegate Award, followed by Arshneet Kaur, Delegate of Haiti, receiving High Commendation. Mahi Dixit (Delegate of USA) and Priya Singh Dhakad (Delegate of Turkmenistan) had received Special Mention and Honorable Mention respectively from the committee, UNITED NATIONS COMMISSION ON THE STATUS OF WOMEN.

The results of the STAKEHOLDER MEET were unexpected as well, when Adarsh Chaudhary, playing the role of Rahul Gandhi, had bagged the Best Representative award followed by Vignesh, portraying Ravi Shankar Prasad bagging the High Commendation. Special Mention was shared by Adamya Sagar (Kanhiya Kumar) and Saksham Tuteja (Nidhi Razdan).

Along with the experience, the winners took home a cash prize to further motivate themselves to push their limits and achieve new heights.

INTER SCHOOL LITERARY CHAMPIONSHIP

**BATTLE WITH SKILLS
FOR THE TROPHY OF
LEARNING**

BATTLE OF WORDS AND WITS

By accommodating the fact that in a student's life, extra-curricular activities are necessary aside from academics to keep the creativity stimulated, the Inter-School Literary Championship was one of the first competitions to be hosted since the inception of Student Organisation OJASWI, under the Division of Student Welfare. A competition consisting of five different areas in which the participants were presented with a platform to showcase their talents in various fields and bring glory to their respective schools.

To participate in this grand tournament, the participants had to enroll themselves into one or all these categories:

1 TURNCOAT:

Like a debate competition but the twist being, as the name suggests, the participant must speak both on behalf and against the given topic to maintain net neutrality towards it. These skills find the application in real life during an informed and unbiased decision while weighing out all the pros and cons of a particular choice.

2 ELOCUTION:

Like any other elocution competition, the participants had to speak on a given topic with immense clarity, which was supported by confident body language. This helps the students gain confidence to speak fluently and makes them stand out in a crowd.

3 PAIR DEBATE:

Debate competition in which participants belonging to the same school were to take part in pairs. The choice of speaking for or against was left to the team.

4 POETRY:

The delicate way of weaving the words into sentences with a beautiful and hidden meaning. That brings the strongest of the feelings in the minds and hearts of the readers. Ever since the beginning of literature, poems have frequently been used to send a message to the public.

5 QUIZ:

To use the lockdown-worthy binging of web series and famous movie titles, the Quiz was held to test the memorizing skills of students. To prove that when it comes to a topic that the mind finds intriguing.

After five of these protracted and wordy rounds, the organizing team received a well-deserved rest, while the participants had new experiences that they could cherish and use through-out their lives. The judges' work had now begun to review and grade the performances at the earliest to sate the audience who would be eager for the results.

After a lot of brainstorming by the judges, the Champions were ready to be named on social media. The team of Mukul Bharadwaj, Yash Kumar, Kamil Farjad, and Isha Lohia had emerged victorious in the Quiz by showing us a perfect example of a mind that never forgets any details. While the captivating lines of Prasoon Tripathi received first prize in the Poetry Competition and the debate-worthy duo of Harsh Medhavi and Riya Rai won the first prize in the Pair Debate Competition. The first prize in Elocution was bagged by the ever so confident Nikhil Yadav, while the ability to adapt and approach a decision unbiased by listing out both the sides of Maanvir Singh Plaha got him the first prize in Turncoat Competition.

The list keeps going on in each category and can be seen on this Instagram post, where all the top three position holder's details from all the competitions are mentioned.

After the declaration of winners on 2nd November 2020 and some sneak peeks into the competition on the same social media platform, like all good things, the event came to its conclusion. It left the students longing for more and have always stayed abreast with the announcements to keep an eye out for competitions as grand and memorable as the Inter-School Literary Championship.

International Yoga Day

-Riddhi Mishra

By changing our lifestyle
and creating consciousness,

Let us work towards
adopting on "International
Yoga Day".

"A writer is working when he's staring out of the window." Burton Rascoe, an American journalist, editor, and literary critic, said these beautiful words. Writing an article or story requires inspiration, and writers get that inspiration from the outer world. There is a writer inside all of us; the only thing we need is to explore ourselves and showcase our talent to the world, but people did not get much chance to show their writing skills, which is why Student Organization Ojaswi, under the aegis of the Division of Student Welfare, organized an event on 21st June 2021 called Du Coeur, which means from the heart in French. It was an Article and Slogan writing competition where participants showcased their spectacular writing skills. The participants had to choose between Article and, Slogan writing. Topics were International Day of Yoga and International Father's Day. Entries given by participants were remarkable; it was a very tough job for the judges to decide the Winners but, after thorough deliberation, 3 of the participants emerged victoriously and, the event successfully concluded.

SEPARATED

It's way longed that we tried
It's way approved that we smiled,
It's way longed that we were together
And, it's all way up we are separated,

It's way longed that,
we were joined by soul
It's all way up that,
we are broken and rolled
It's way longed that,
we wear happiness.
It's all way up we are a,
piece of sadness,

We came a long way, understanding
But, it all ends up in a misunderstanding,
Its way longed that we were heard
It's all way up that we are unheard,
It's way longed that we were,
a piece of each.
It's all way up,
that we are a piece of only other.
Yes! it's a way longed that we were flowers
It's all way up we just remained thorns,
We come a long way up, stepping together
But it's all ends up, In a half way together.

PENNED PEARLS

Some stories don't have Its Own head and toe
But still explain the essence of its own.

जो भी था, जैसा भी था
अपना - सा बनता चला गया॥
सिखाके और सीखते चलता था,
जो भी था वो, ये ही है बन गया॥
जैसा भी था, वैसे ही जिंदगी से जुड़ता चला गया॥

जो मशहूर है उससे पूछो
कितने जख्म पर खुद मरहम लगाकर
मशहूर हुआ है इस जमाने में

Preadolescence bruises are sturdy
Than the puny trauma of teen's devastation.
